NATURAL GAS RATES TO CHANGE FOR AQUILA, INC. d/b/a AQUILA NETWORKS---ST. JOSEPH LIGHT & POWER UNDER SCHEDULED WINTER NATURAL GAS FILING

Jefferson City (November 14, 2002)---Natural gas customers of Aquila, Inc. d/b/a Aquila Networks-St. Joseph Light & Power will see lower natural gas rates under a scheduled winter season filing reviewed and accepted by the Missouri Public Service Commission. This filing primarily reflects estimated changes in the cost of natural gas for the upcoming winter season and changes in the Actual Cost Adjustment (ACA) factor as well as any refunds from suppliers. This rate change will take effect on November 15, 2002.

The ACA is a mechanism which tracks actual natural gas costs over a 12 month period. It ensures that what the natural gas company pays to its suppliers for natural gas is in fact what it recoups in rates from its customers. The ACA makes adjustments to rates if any over or under collections of natural gas costs occurred at the end of the 12 month period.

A residential customer currently pays \$0.5550 per Ccf (100 cubic feet of gas). Under this filing, the rate will drop to \$0.4284 per Ccf, a decrease of approximately 12.6 cents per Ccf. **The effect on a typical residential heating customer for the winter season (November to March) is a decrease of approximately \$112 when compared to the rates currently in effect.**

Approximately 60% to 70% of a customer's natural gas bill reflects the cost of natural gas from wholesale suppliers. The wholesale cost of natural gas (the cost your local natural gas company must pay to its suppliers for natural gas) is not regulated by the Missouri Public Service Commission. The wellhead cost of natural gas is unregulated and is primarily driven by supply and demand. The Missouri Public Service Commission does have regulatory review authority to ensure that regulated gas companies make prudent decisions in securing natural gas supplies for their customers.

Aquila, Inc. d/b/a Aquila Networks-St. Joseph Light & Power serves approximately 6,300 natural gas customers in the Missouri counties of Andrew, Atchison, Nodaway and Holt.
